

Brunei's first polytechnic establishment which offered Level 5 Diploma programme have signed MOU with PetroEdge & NrgEdge on July 2017. This collaboration will allow the polytechnic students and lecturers to network with various worldwide recognized industries in seeking jobs, online forums and discussions, and looking into digital technical learning through the company dedicated learning platform [www.nrdedge.net/learning](http://www.nrdedge.net/learning).

The exhibition of using Virtual-Reality kit in e-learning modules has attracted attention and has the potential to blend with the polytechnic's desire in innovative teaching and learning process using technology.
